The Chocolate Man lives in the middle of the forest, in a special house he built all by himself. He is very wise, and loves to share what he has learned with special children. In his spare time he likes to hunt for chocolate truffles and try new hot cocoa recipes.

Nick is little boy who enjoys exploring as much as he does eating chocolate. He lives with his sister Emily and their family near a deep forest. Like many boys, Nick can be a little impatient some times, and make silly choices. . .even more so when he is hungry.

Emily is also fond of chocolate, and very curious. She is a bit more cautious than her little brother, and some times misses out on new things because of it. Emily loves Nick very much, and she often finds herself asking him to think about what he is doing.
